HOW TO PLAY KENO \$50,000

Limited to aggregate players each game.

Twenty balls are drawn each game out of the 80 numbered balls. You may select from 1 up to 15 numbers out of the 80.

Mark the numbers you wish to play with a bold X. Write the price you wish to bet on the top right hand corner of the ticket. Below the price in the right hand margin write the number of spots you have selected.

Give your Keno ticket and bet to one of our Keno Writers. The Keno Writer will register your ticket and return to you your authorized game ticket. Your authorized Keno game ticket now has the number of the game you are playing at the top right hand corner. Your ticket is good for that game only.

The amount you win is dependent on the type of ticket played, the number of spots caught and the amount of money bet. Consult the charts to determine the cost and payoffs of the different tickets on the following pages.

Como Jugar Keno:

Por ejemplo: Escoja hasta quince números de 1 a 80. Indíquelos con una "X" mayúscula.

De los 80 números que aparecen en los boletos, veinte números se extraen cada juego.

Indique la cantidad de su apuesta en la mano derecha arriba del boleto. Directamente bajo el importe de su apuesta, indique la cantidad de números que ha seleccionado.

Entregue su boleto con su apuesta a un escritor de Keno. Uno de nuestros escritores de Keno registrarán su boleto y le devolverán su boleto autorizado para el juego indicado. Cada boleto es valido para un juego únicamente.

La cantidad que Ud. gane, depende en el tipo de boleto que Ud. haya jugado, la cantidad de números que Ud. se haya sacado y la cantidad de su apuesta.

Nuestros corredores de Keno estan a sus ordenes y con gusto haran las apuestas por Ud.

No somos responsables si el corredor no registra su boleto a tiempo para el juego corriente.

Es obligatorio que boletos triunfadores sean cobrados inmediatamente a la conclusion de cada juego.

KENO RULES

1. Please check your tickets to be certain that they have been correctly marked. Corrections must be made before the start of the next game or our copy (the copy of your ticket submitted for that game) will be ruled valid.
2. Keno boards are not official until all numbers have been drawn and confirmed. Any errors or disputes on the Keno boards will be decided by the actual 20 numbers that are drawn for that game.
3. Keno runners are for your convenience. We are not responsible if tickets are turned in too late for the current game. If you decide to use the services of a Keno runner, please have your tickets ready.
4. **Federal regulations require that all winning tickets be presented for payment immediately after your last game is called, before the start of the next game.**
 Internal Revenue Service also requires net winnings of \$1,500.00 or more be reported and a W2G form will be filled out before payment is made. Social Security card and one other identification will be necessary for the completion of this form.
5. Non-resident aliens (in accordance with the U.S. Tax laws) - the payer must withhold 30% of the gross winnings of \$1,500.00 (net) or more unless U.S. treaties or conventions specify otherwise.
6. Our Keno staff will be happy to answer any questions you may have.

MULTI KENO

Now you can play 5 or 10 consecutive Keno games with just one ticket. You must play the same ticket on each game and be on the Casino premises during the entire calling of the Multi games. Just present your ticket to the Keno Writers or Runners, informing them you wish to play Multi-Keno and pay for all games at one time. Then, you can play your favorite Casino games uninterrupted. Remember, all regular Keno rules apply.

Don't forget, winning tickets must be presented for payment immediately after your last game is called, before the start of the next game. Any deviation from these rules will result in voiding the ticket and/or winnings.

GOOD LUCK!

Note: In Multi-Keno any combined net winnings of \$1,500.00 or more are reportable as required by federal regulations.
